

Transnational Commercial Cookery Online Package Program

Would you like to become a Chef with an Australian Qualification?

This goal may seem out of reach right now, with COVID-19 restricting travel, and meaning that many people are confined to their homes. Sero Institute has taken this into account and developed a **blended ONLINE and FACE-TO-FACE course** that will allow you to count the time you study at home as part of your time in Australia.

Transnational Commercial Cookery Online Package Program

Online study undertaken as a result of COVID-19 travel restrictions, will include the theory component delivered outside of Australia online, with the practical components being delivered in Australia once our borders re-open.

Join our online course anywhere in the world and receive our special package price.

PACKAGE 1 – CULINARY PROGRAM

PACKAGE 2 – EXECUTIVE CHEF TRAINING
